

The Steps for updating the firmware of Z-325xBT scanner

Please follow the steps below to update the firmware of Scanner with USB cable.

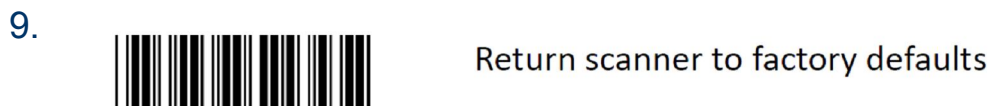

1. connect USB cable to scanner and PC
- 2.
- 3.

4. Run Z325xHost_V100.exe.

5. Choose Port: as USB Port.
6. Click "Search" to open the firmware file, xxxxxxxx.bin.
Noted: if choose the wrong file, the scanner might need to send back to factory
7. Press "Run" and the firmware would be updated in a while.
After that, the Scanner will restart.

Scan the following barcodes to make sure the new version was updated.
